

Dear FCC,

Why don't you just let free enterprise alone? As tax paying citizens living in the most expensive state in the United States we have the right to listen to radio that is not filled with garbage ads and political rhetoric. In order to keep earning the big bucks to keep supporting this welfare state and all these social programs and illegal immigrants we have very little time to listen the the news, traffic and weather and XM satisfies this time constraint by offering timely succinct information day and night. Since we commute over 3 hours a day to earn our wages having traffic updates all the time rather than having to turn to AM and fish through all the stations is an imperative part of the commute routine and at least helps with decision making on routes to take with the daily accidents. There is no other source for this quality timely information on the public radio stations.

I PAY for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

We respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve.

Sincerely,

Julia Mitas
